

EXIT

One for all, all in one

mcPhilben 44R Line, a universal edge-lit exit that defines flexibility

**PHILIPS**  
**Day-Brite**

# reliability

Designed to be surface, recessed, or end mounted to the wall or ceiling, the 44R Line is the one exit sign able to meet all of your application needs. With its field rotatable edge-lit exit panel and contemporary design, it is the clear choice to provide the reliable quality and flexibility desired in exit signage.

## features

- Exit panel **rotates to any angle from 0° to 180°** allowing ceiling, wall, or sloped ceiling mounting with the same exit sign.
- This universal edge-lit can be **recessed mounted in the ceiling or wall, AND surface mounted on the ceiling or wall, OR end mounted**. All this is accomplished with one catalog number.
- A distributor can order and stock **ONE** catalog number, all in **ONE** carton, for any of the **FIVE** applications.
- The universal edge-lit with battery comes **standard with self-diagnostic/self-test circuitry**. This feature exempts the building owner from the burden of monthly testing of every exit sign.
- **Field selectable chevrons** eliminate the need to specify the arrow designation.
